FRONT END DEVELOPER   WWW.ARIFMAMMADOV.COM

With over 10 years of experience in web development, I specialise in creating modern and interactive websites for a diverse range of clients, including agencies, large corporations, law firms, and individuals. I hold a degree in Electronics and Mobile Communications and have studied Computer Science for 3 years. Currently based in Europe, I offer web consulting services and develop custom solutions. My extensive portfolio of over 30 full-stack projects reflects my expertise in delivering high-quality web solutions for both internal and external use.
